7 person has recommended Alex

"I do not hesitate in writing this reference for Alex. Our site, Genomeweb.com, is an authenticated news site running on Drupal serving 180,000 monthly unique visitors, and Alex stepped in and helped correct an ongoing and user frustrating issue. Alex was able to analyse and identify the root cause of the issue, advise us on how it needed to be corrected, and proceeded to resolve it. He solved this particular issue after numerous attempts by others. Alex is easy to work with, is personable, is thorough and I would consider him for future projects should the need arise."

— **Greg Anderson**, *Chief Operating Officer / Publisher, GenomeWeb LLC*, was Alex's client

"Alex is one of the most creative and innovative people we have ever worked with. Nothing is ever a problem. He takes on jobs and nothing is ever a problem - he sees everything as an opportunity not a challenge. Wonderful to work with - always present, always willing, always creative. We love working with him."

— **Louise M. Guido**, *CEO / Managing Partner, ChangeCorp*, was Alex's client

"Alex was a great asset to help finish our Drupal development project. He was knowledgeable, flexible and always tried to find a solution that would work in our current environment. He delivered on time and was always open to making additional modifications when needed. Because of his skills we were able to launch on time and within budget. I would recommend him to any company as he is easy to work with and gets the job done. Thanks Alex!"

— **Kathryn Sebuck**, was Alex's client

"Alex is a talented web solutions consultant and developer. He helped me with some very important projects, and delivered impressively."

— **George W. Ghindia**, worked with Alex at ThomasNet

"Alex is a talented web developer with a strong drive and commitment to the quality of his work. He is quite personable and tries to be accommodating to demanding client requests. I have enjoyed working with him, and would recommend him for future web projects."

— **Roshit Ravinath**, was Alex's client

"Alex handles all of the back office details of our somewhat complex website system. He is able to manage the sites as well as help out when we need to develop something new. He's willing and able to teach staff how to do things we need to understand to handle our content management systems in both WordPress and Drupal. He also is on call pretty much round the clock should any system have trouble. So happy to have him on our team!"

— **Janelle Farris**, was Alex's client

"Alex is Drupal master with top notch skills and seasoned experience. He is focused, dedicated and is a great team player. A huge asset to any dev team. And a mean banjo player."

— **Arthur Shim**, was Alex's client
